5

6 NOTE: This has been a required policy under federal law since 2001, which MTSBA has updated  
7 recently due to a change in federal law. Under the Broadband Data Services Improvement  
8 Act/Protecting Children in the 21st Century Act of 2008 (P.L. 110-385), school districts must now, as  
9 part of their Internet Safety Policy (which is required in order to receive E-Rate discounts), educate  
10 minors about appropriate online behavior, including:

11 □ Interacting with other individuals on social networking sites and in chat rooms; and

12 □ Cyberbullying awareness and response.

13

14 NOTE: We have revised our template regulation by adding the red text below (see section on  
15 Internet Safety) to comply with new legal requirements for the E-Rate discounts.

16

17 All use of electronic networks shall be consistent with the District’s goal of promoting  
18 educational excellence by facilitating resource sharing, innovation, and communication. These  
19 procedures do not attempt to state all required or proscribed behaviors by users. However, some  
20 specific examples are provided. **The failure of any user to follow these procedures will result  
21 in the loss of privileges, disciplinary action, and/or appropriate legal action.**

22

23 Terms and Conditions

24

25 1. Acceptable Use – Access to the District’s electronic networks must be: (a) for the purpose of  
26 education or research and consistent with the educational objectives of the District; or (b) for  
27 legitimate business use.

28

29 2. Privileges – The use of the District’s electronic networks is a privilege, not a right, and  
30 inappropriate use will result in cancellation of those privileges. The system administrator  
31 (and/or building principal) will make all decisions regarding whether or not a user has  
32 violated these procedures and may deny, revoke, or suspend access at any time. That  
33 decision is final.

34

35 3. Unacceptable Use – The user is responsible for his or her actions and activities involving  
36 the network. Some examples of unacceptable uses are:

37

38 a. Using the network for any illegal activity, including violation of copyright or  
39 other contracts, or transmitting any material in violation of any federal or state  
40 law;

41

42 b. Unauthorized downloading of software, regardless of whether it is copyrighted or  
43 decompiled;

44

45 c. Downloading copyrighted material for other than personal use;

46

47 d. Using the network for private financial or commercial gain;

1

2

3

4

e. Wastefully using resources, such as file space;

5

6

f. Hacking or gaining unauthorized access to files, resources, or entities;

7

8

g. Invading the privacy of individuals, which includes the unauthorized disclosure, dissemination, and use of information of a personal nature about anyone;

9

10

11

h. Using another user’s account or password;

12

13

14

i. Posting material authored or created by another, without his/her consent;

15

16

j. Posting anonymous messages;

17

18

k. Using the network for commercial or private advertising;

19

20

l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing, or illegal material; and

21

22

23

24

m. Using the network while access privileges are suspended or revoked.

25

264.

Network Etiquette – The user is expected to abide by the generally accepted rules of network etiquette. These include but are not limited to the following:

27

28

29

a. Be polite. Do not become abusive in messages to others.

30

31

b. Use appropriate language. Do not swear or use vulgarities or any other inappropriate language.

32

33

34

c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.

35

36

37

d. Recognize that electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.

38

39

40

41

e. Do not use the network in any way that would disrupt its use by other users.

42

43

f. Consider all communications and information accessible via the network to be private property.

44

45

465.

No Warranties – The District makes no warranties of any kind, whether expressed or

1  
2  
3

4 implied, for the service it is providing. The District will not be responsible for any  
5 damages the user suffers. This includes loss of data resulting from delays, non-deliveries,  
6 missed deliveries, or service interruptions caused by its negligence or the user’s errors or  
7 omissions. Use of any information obtained via the Internet is at the user’s own risk.  
8 The District specifically denies any responsibility for the accuracy or quality of  
9 information obtained through its services.

10

116. Indemnification – The user agrees to indemnify the District for any losses, costs, or  
12 damages, including reasonable attorney fees, incurred by the District, relating to or  
13 arising out of any violation of these procedures.

14

157. Security – Network security is a high priority. If the user can identify a security problem  
16 on the Internet, the user must notify the system administrator or building principal. Do  
17 not demonstrate the problem to other users. Keep your account and password  
18 confidential. Do not use another individual’s account without written permission from  
19 that individual. Attempts to log on to the Internet as a system administrator will result in  
20 cancellation of user privileges. Any user identified as a security risk may be denied  
21 access to the network.

22

238. Vandalism – Vandalism will result in cancellation of privileges, and other disciplinary  
24 action. Vandalism is defined as any malicious attempt to harm or destroy data of another  
25 user, the Internet, or any other network. This includes but is not limited to uploading or  
26 creation of computer viruses.

27

289. Telephone Charges – The District assumes no responsibility for any unauthorized charges  
29 or fees, including telephone charges, long-distance charges, per-minute surcharges, and/  
30 or equipment or line costs.

31

3210. Copyright Web Publishing Rules – Copyright law and District policy prohibit the  
33 republishing of text or graphics found on the Web or on District Websites or file servers,  
34 without explicit written permission.

35

36 a. For each republication (on a Website or file server) of a graphic or text file that  
37 was produced externally, there must be a notice at the bottom of the page  
38 crediting the original producer and noting how and when permission was granted.  
39 If possible, the notice should also include the Web address of the original source.

40

41 b. Students and staff engaged in producing Web pages must provide library media  
42 specialists with e-mail or hard copy permissions before the Web pages are  
43 published. Printed evidence of the status of “public domain” documents must be  
44 provided.

45

46

1  
2  
3

4 c. The absence of a copyright notice may not be interpreted as permission to copy  
5 the materials. Only the copyright owner may provide the permission. The  
6 manager of the Website displaying the material may not be considered a source of  
7 permission.

8

9 d. The “fair use” rules governing student reports in classrooms are less stringent and  
10 permit limited use of graphics and text.

11

12 e. Student work may only be published if there is written permission from both the  
13 parent/guardian and the student.

14

15[OPTIONAL]

16

1711. Use of Electronic Mail.

18

19 a. The District’s electronic mail system and its constituent software, hardware, and  
20 data files are owned and controlled by the District. The District provides e-mail to  
21 aid students and staff members in fulfilling their duties and responsibilities and as  
22 an education tool.

23

24 b. The District reserves the right to access and disclose the contents of any account  
25 on its system without prior notice or permission from the account’s user.  
26 Unauthorized access by any student or staff member to an electronic mail account  
27 is strictly prohibited.

28

29 c. Each person should use the same degree of care in drafting an electronic mail  
30 message as would be put into a written memorandum or document. Nothing  
31 should be transmitted in an e-mail message that would be inappropriate in a letter  
32 or memorandum.

33

34 d. Electronic messages transmitted via the District’s Internet gateway carry with  
35 them an identification of the user’s Internet “domain.” This domain name is a  
36 registered domain name and identifies the author as being with the District. Great  
37 care should be taken, therefore, in the composition of such messages and how  
38 such messages might reflect on the name and reputation of this District. Users  
39 will be held personally responsible for the content of any and all electronic mail  
40 messages transmitted to external recipients.

41

42 e. Any message received from an unknown sender via the Internet should either be  
43 immediately deleted or forwarded to the system administrator. Downloading any  
44 file attached to any Internet-based message is prohibited, unless the user is certain  
45 of that message’s authenticity and the nature of the file so transmitted.

46

1  
2  
3

f. Use of the District’s electronic mail system constitutes consent to these regulations.

6

7Internet Safety

8

91. Internet access is limited to only those “acceptable uses,” as detailed in these procedures. Internet safety is almost assured if users will not engage in “unacceptable uses,” as detailed in these procedures, and will otherwise follow these procedures.

10  
11  
12

132. Staff members shall supervise students while students are using District Internet access, to ensure that the students abide by the Terms and Conditions for Internet access, as contained in these procedures.

14  
15  
16

173. Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene; (2) pornographic; or (3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and determined by the Superintendent or designee.

18  
19  
20  
21

224. The district shall provide age-appropriate instruction to students regarding appropriate online behavior. Such instruction shall include, but not be limited to: positive interactions with others online, including on social networking sites and in chat rooms; proper online social etiquette; protection from online predators and personal safety; and how to recognize and respond to cyberbullying and other threats.

23  
24  
25  
26

285. The system administrator and building principals shall monitor student Internet access.
